Hi Dolores,

I reviewed again and I think it's looking really good! I read through the calculations, etc. and think it seems very logical. Hopefully I'm not too steeped in the weeds to be a good reviewer, but we'll see what others think! See attached for just a few more suggestions.

Best,
Whitney

Done with this. I don't know if we can do better. Whitney, I scoured all your comments and followed you advice and it leads me to this draft number 9 and the ensuing numbers. We can always change them again, and again, but at some point we need to agree and move to the other accompanying documentation.

Take a quick look at what is in and what is out and let me know. Kathy wanted me to calculate it throughout, so I did. As

Your thoughts and incisive comments are most welcome.
